

Two applications yet one RJ Connector does it all. If you want to use both applications at the same time, simply insert an UltraJax male RJ Plug. Our RJ45 version of UltraJax has 16 contact pins all in the compact size of one RJ connector. Now with this exciting technology, UltraJax Multi-port RJ harmonica connectors and UltraJax Stackable RJ Connectors provide double the contact count for users who need higher-density connections in a small compact RJ connectivity device.

**UltraJax is a Multi-Function RJ Connector including:**

- An RJ11/RJ45 Combination Connector
- A High Density RJ Connector with Double the Contacts
- A High-Speed Gigabit Connector
- A Combination USB and RJ11/RJ45 Connector
- An RJ45 Networking Port and a Device Test Port in One Connector
- An S-Video and RJ45/RJ11 Multi-Function Connector
- A Dual RJ11/RJ11 or RJ45/RJ45 or RJ11/RJ45 Wall plate
