

Conflict-Free Smelter Program Tungsten Smelter List

This list includes the company names, locations and conflict minerals policies of all tungsten smelters/refiners that are compliant with the relevant [Conflict-Free Smelter Program assessment protocol](#) (Table 1 on this page). It also lists Tungsten Industry Conflict Minerals Council (TI-CMC) members' company names and locations in progress toward CFSP compliance, as well as names and locations of tungsten smelters active in the CFSP. Access and use of any information contained in this list is subject to the Terms and Conditions to which the user has agreed.

Table 3: CFSP Active Tungsten Smelters

Tungsten smelters that are participating in the CFSP by agreeing to complete a CFSP compliance audit conducted by an independent third party auditor. CFSP Active Tungsten Smelters are identified as Active in the CFSP once they submit a signed Agreement for the Exchange of Confidential Information (AECI) and Auditee Agreement contracts. If a smelter or refiner that has been identified as Active is deemed by the CFSP Audit Program Manager to not be progressing toward an audit, gap closure or re-audit for more than 90 days, that smelter or

refiner will be removed from the Active list. A company that is unresponsive for 45 days will be removed from the Active list.
