April 10, 2013

**Subject: Connector / Component End of Life (EOL) Notification**

To All Suppliers of Xmultiple

Please be informed that Xmultiple is requesting a minimum 6 months notification of any connectors or components which will reach its End of Life (EOL).

The following information needs to be accompanied with the EOL notification and submit to Xmultiple on time:

Official EOL Letter

EOL Effective date, last time purchase date and last time delivery date.

Reason of EOL

Replacement Part (if any) with drawing

Assurance of supply of proposed part

We seek your cooperation of this EOL Notification so that we are able to notify our end customers early in case of EOL occurrence. As you know customers need ample time implementing steps to reduce the impact of any production schedule changes or for the need to redesign a new part into their design.

Kindly acknowledge and return this form to Xmultiple.

Please contact Mike Basowski [mike@xmultiple.com](mailto:mike@xmultiple.com) if you have any questions regarding this EOL Notification. The form can be faxed or emailed back to us. Thank you.

**Acknowledged by**

Regards,

Alan Pocrass
