## An Introduction to Xmultiple's HDMI Flag Style Vertical Mount Connector

### HDMI Flag Style Connector - XHDMI Series

Xmultiple's XHDMI-1-19S1-20N **HDMI (High-Definition Multimedia Interface)** connector is a compact HDMI audio/video interface for transferring uncompressed video data and compressed/uncompressed digital audio data. The XHDMI connector provides a perfect solution when a compact connector is required to save space on your printed circuit board. The Flag style design mounts in a vertical position on any HDMI-compliant device you are designing. Some of the HDMI devices include: computer monitors, video projectors, digital televisions, digital audio devices, computers, laptops, and any other product with an HDMI requirement. <http://www.xmultiple.com/xdrawHDMI.htm>

The XHDMI-1-19S1-20N has Nineteen pins, with bandwidth to support all SDTV, EDTV and HDTV modes. This female HDMI receptacle Type A connector has an inside dimensions of 14 mm x 4.55 mm. The connector is electrically compatible with single-link DVI-D as well. Available with and without EMI flanges. For more information please call us - 1-805-579-1100.
