An Introduction to Xmultiple's XMH 1x4 Gigabit Magnetic Connector

Low Profile 1x4 High Performance 1 Gigabit Magnetic Jack - XMH Series

Xmultiple's **XMH-9774 (High-Performance 1x4 Gigabit Magnetic Connector)**.

The XMH-9774 is a one gigabit magnetic connector in a compact size. This RJ45 1x4 connector has a height of only 12.3mm. Xmultiple's XMH-9777 RJ45 Magnetic Modular Jack incorporates wire-wound components (magnetics) in standard RJ45 jacks. In addition to connectivity, the XMH-9774 magnetic jack provides signal conditioning, electromagnetic interference (EMI) compliance and electrical isolation. The XMH-9774 Magnetic modular jack supports Fast Gigabit (1000 Base-T) Ethernet applications. <http://www.xmultiple.com/xdrawXMH-XRJH-2.htm>

The XMH -9774 connectors are highly integrated devices that combine network magnetics and RJ45 connectors. Applications for the XMH-9774 include switches, routers, hubs, Set Top Box, Digital TV, LCD TV, Printers, Desktop, Notebook PC's and any other device requiring an RJ connector with integrated magnetics. XMH-9774 is available with and without LEDs. For more information please call us - 1-805-579-1100.

Leadtime: 8 weeks

MOQ : We will take small or large orders

Xmultiple will Custom Tool Products For Any Of Your Special Interconnect Solution Requirements

Xmultiple Technologies, Inc. *Connecting the Information Age*

With over a decade of experience, Xmultiple is an industry leader with many innovative connector and components for all your needs. Our company can help you if you have a hard to find connector or you require development or tooling to satisfy your requirement. We are well-known for our 4,978,317 patent which integrated lights into the standard RJ Connectors.

Thank you and please contact for any of your interconnect solution requirements.
