Press Release

Xmultiple Announces Our Quality Assurance Manager Completed the ISO 9001:2015 Training for the New Emerging ISO Update

LOS ANGELES, CA, May 30, 2014 – Xmultiple has ISO 9001:2008 in all of our manufacturing plants in China and Taiwan. The ISO 9000 family of standards relate to quality management systems and are designed to help organizations ensure they meet the needs of customers. The standards are published by ISO, the International Organization for Standardization and available through National standards bodies.

Xmultiple is pleased to announce that Don Diamond, our Quality Assurance Manager, recently completed the ISO 9001-2015 training. He is fully certified in the new updated version of ISO 9001 and is fully prepared to revise/update the ISO program at Xmultiple to ensure we are fully compliant with the newly updated regulations. This will assure our customers that we fully adhere to all newly updated standards once they are fully implemented. Xmultiple Technologies is fully committed to following the ISO 9001 program and has practices and procedures in place to follow this program

About Xmultiple:

Xmultiple, a global manufacturer of connectors and components for the interconnect solution industry. The Xmultiple “Mini I/O RJ45 Connector” represents a new innovative Mini RJ45 connector line of consumer data and mobile products. The Mini I/O RJ45 products and also be enhanced with the integrated of our X-Sealant Anti-corrosion Gel technology. X-Sealant Gel provide consumers with the ability to improve performance and durability.
