## Press Release

---

### **Xmultiple Patent 9,509,109 Granted on November 29, 2016 – United States Patent entitled “Combination RJ Connector and MicroSD Flash Card Connector”**

**Los Angeles, CA, November 29, 2016** – Xmultiple was granted United States Patent 9,509,109 on November 29, 2016. This patent is for a combination RJ connectors and MicroSD flash card connector.

**Xmultiple Technologies, Inc. has named the 9,509, 109 connector part of the Xsmart connector series.**

Xmultiple has developed an innovative line of RJ / MicroSD combo connectors include versions also integrated with USB, HDMI and eSATA connectors as well. Our MicroSD connectors have been designed to reduce memory card fly-out and sticking problems. Our X-SMARTJACK connectors are an excellent solution to reduce printed circuit board space on motherboards and other desktop peripherals. With the expanding use of MicroSD cards for smartphones, tablets, cameras and other mobile devices, users of these devices want an easy way to access the information on their MicroSD cards with their desktop computers and other desktop devices. With X-SMARTJACK combo connectors, MicroSD cards can be read and copied to a desktop computer without the need for adapters. The Xmultiple X-

SMARTJACK MicroSD connectors are available in various profiles with superior wiping function to assure a good electrical contact with smooth and controlled card ejection

Xmultiple X-SMART- JACK is a combination RJ connector and a MicroSD card connector integrated in compact form factor. This connector is available with or without integrated LAN transformer magnetics. With this compact form factor, RJ and MicroSD functions are combined in electronic devices for all types of applications. This technology saves valuable printed circuit board space for any product design requiring an RJ and MicroSD capability.

### ***About Xmultiple and***

Xmultiple is a global manufacturer of connectivity products supporting twisted pair wiring communications, networking, RF/Microwave, test & measurement, broadcast, medical, military and industrial applications. Xmultiple manufacturers patent pending and patent electronic products related to the rechargeable battery industry. The XP1-Power iPhone/iPod USB Sync/Charging rechargeable battery and cable are designed to meet the needs for Smartphone and cellphone users. X-SMART is a consumer division of Xmultiple's with a manufacturing facility for computer Mini PC dongles, located in Shenzhen, China.

Xmultiple has been providing market-leading interconnector solution products and services to small, midsized and large companies. Throughout our history, our commitment to customers has been at the center of everything we do. It is a commitment that has helped make Xmultiple a recognized global leader in supplying "Interconnect Solutions" products such as connectors and components. X-SMART Connectors are another example of the innovation we can provide our customers.
