Re: European Commission Directive 2006/122/EC of 12 December 2006 regarding PFOS

We hereby confirm Xmultiple Technologies, Inc. products and manufacturing processes are in compliance with the above referenced Directive restricting the use of perfluorooctane sulfonates (PFOS).

Commercially available in the form of salts, derivatives and polymers, PFOS-related substances have been used particularly to provide grease, oil and water resistance to electronic components. The connector/component industry and Xmultiple have turning to safer substitutes since 2008.

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers.
