GENERAL :

The Xmultiple X-SMART™ Connector Series combine RJ connectors with MicroSD card reader connectors. Xmultiple has developed an innovative line of RJ / MicroSD combo connectors to include versions also integrated with USB, HDMI and eSATA connectors as well. Our MicroSD connectors have been designed to reduce memory card fly-out and sticking problems. Our X-SMART™ connectors are an excellent solution to reduce printed circuit board space on motherboards and other desktop peripherals. With the expanding use of MicroSD cards for smartphones, tablets, cameras and other mobile devices, users of these devices want an easy way to access the information on their MicroSD cards with their desktop computers and other desktop devices. With X-SMART™ combo connectors, MicroSD cards can be read and copied to a desktop computer without the need for adapters. The Xmultiple X-SMART MicroSD connectors are available in various profiles with superior wiping function to assure a good electrical contact with smooth and controlled card ejection. The X-SMART™ connector optionally is integrate a logic chip which uses a portion of the MicroSD capacity to store data being collected regarding the per port status of the connection. In addition to logic chips, the new X-SMART connectors have versions integrated with magnetics for transmission of 10/100/1000Mbps as well as 10GB transmission. The X-SMART™ connector offers the MicroSD capability in Power Over Ethernet (PoE) and surge protection connectors as well.
